

RECOMENDED GEAR LIST 2025

To ensure your comfort and safety, the equipment list has been updated to accommodate activities and conditions at the 2025 camp and on hikes. **Definitely bring the required items.** Keep in mind while you're packing during a heatwave in the city that you will need warm clothing at camp and on the hikes. Believe it or not, temperatures can dip below freezing. Camp this year is at an elevation of around 100' but some hikes may go as high as 6000'. If you are not properly equipped for a particular hike, you may not be able to participate. Snow on many trails is possible. Label your belongings!

CLOTHING

Required Clothing

- Full set of waterproof rain gear: jacket and rain pants
- Hiking boots/shoes - strong, comfortable and well broken-in
- Shirt and pants for sun protection
- Long pants for cool evenings and high peaks
- Shoes for around camp
- Socks (inner and outer), twice as many as you think you will need
- Two or three sets of your usual hiking gear (non-cotton shorts and shirts)
- Hat for sun protection
- Warm hat, mittens or gloves (necessary for high peaks)
- Wool, primaloft, or fleece layers of clothing

Recommended Clothing

- Bathing suit and beach towel for swimming, if desired
- Second pair of hiking boots/shoes, if you have them
- Waterproof shoes for damp mornings
- Thermal underwear-not cotton
- Sundress/cover-up for trips to the showers
